### PROJECTS

- **Buzznet ( Real time communication platform ) - [repo](#)**
  - ✓ **Tech stack** : ReactJS , NodeJS , ExpressJs , PostgreSQL.
  - ✓ A Slack/Discord-like communication platform . It features real-time messaging, voice channels using WebRTC, and AI-powered chatbot integration with Gemini.
  - ✓ The app supports workspace creation, channel management, direct messaging, and secure authentication, ensuring seamless team collaboration.
- **VideAno ( Video annotation platform ) [demo link](#) - [repo](#)**
  - ✓ **Tech stack** : Next JS , PostgreSQL , Prisma .
  - ✓ A web application designed to annotate and take notes on specific video timestamps, supporting both YouTube videos .
  - ✓ The platform offers an intuitive interface for efficient video navigation and note management.
- **Food Delivery Website ( practice project ) – [demo link](#) - [repo](#)**
  - ✓ **Tech stack** : ReactJS , NodeJS , ExpressJs , MongoDB
  - ✓ Integrated Stripe for secure transactions, bcrypt for encrypting user data, and JWT for robust authentication. Built an admin dashboard to manage users, orders, and menu items efficiently.
- **Youtube API Driven Website ( practice project ) – [demo link](#) - [repo](#)**
  - ✓ **Tech stack** : Developed using React.js for building a dynamic and responsive user interface.
  - ✓ Integrated the YouTube Developer API to dynamically fetch and display videos, with a category section for organizing content by genres and topics. Ensured a fully responsive design using CSS media queries

### TECHNICAL SKILLS

- **FRONTEND** : React JS , Next JS , Tailwind CSS , React state management library .
- **BACKEND** : NodeJS , ExpressJS .
- **DATABASE** : PostgreSQL , MongoDB .
- **Language**: TypeScript , JavaScript , Java .
- **Other**: Docker , AWS , Version control , Kubernetes , Prisma .

### EDUCATION

- **SSLC** : 87% | Vani School , Belthangdy
- **PUC** : 91% | SDM PU College , Ujire - Dharmasthala
- **UG** : Bvoc Software and App Development | SDM UG College , Ujire – Dharmasthala
  - ✓ Practical-Oriented Degree: focuses on hands-on learning, enhancing programming language skills and problem-solving abilities.
  - ✓ making it more effective than traditional degrees in terms of technical skills.
